- 18. (original) The method of Claim 17, wherein creating a new insurance product comprises creating an insurance product comprising reduced premiums, reduced risk of claims by adherence assurances, and an increased standard in provided services.
- 19. (original) The method of Claim 17, wherein distributing the new insurance product to the insured entity though a distribution channel comprises distributing the new insurance product through authorized brokers.
- 20. (currently amended) A system for providing reduced insurance premiums for an insured entity from an insuring entity, the system compassing:
 - a system server connected to a telecommunications network; an independent program catalyst, residing on said system server, and operative to:

1611946_1 DOC

formulate an insurance program containing predetermined program requirements for the insured entity to be insured by the insuring entity, wherein one or more of the predetermined program requirements are associated with an insurance risk factor;

implement procedures designed to enable the insured entity to meet the program requirements, thereby reducing a risk associated with the insurance risk factor;

monitoring the results of the procedures to identify the <u>conformance</u> proximity of the insured entity to meeting the program requirements; and

attribute a score to the monitored results;

a web-enable software solution for communicating between the insuring entity, the insured entity, and the program catalyst.

- 21. (original) The system of Claim 20, wherein said score comprises an indication of the insured entity's conformance with said program requirements.
- 22. (original) The system of Claim 20, wherein the program catalyst is further operative to provide feedback to the insuring entity regarding said monitored results and said score.
- 23. (original) The system of Claim 20, wherein the program catalyst provides feedback to the insuring entity by utilizing the web-enable software.
- 24. (currently amended) A system for providing improved performances for a target entity, the system comprising the components of:

an independent program catalyst that is operative to:

identify program requirements, wherein one or more of the program requirements are associated with an insurance risk factor;

implement procedures directed towards assisting the target entity in meeting the program requirements, thereby reducing a risk associated with the insurance risk factor;

monitoring the results of the target entity to identify the conformance proximity to meeting the program requirements;

1611946_1.DOC

a web-enable software solution for providing the monitoring results and the scores to the target entity, the independent program catalyst and an interested third party.

- 25. (original) The system of Claim 24, wherein said score comprises an indication of the insured entity's conformance with said program requirements.
- 26. (original) The system of Claim 24, wherein the program catalyst is further operative to provide feedback to the insuring entity regarding said monitored results and said score.
- 27. (original) The system of Claim 24, wherein the program catalyst provides feedback to the insuring entity by utilizing the web-enable software.
- 28. (new) The method of Claim 1, wherein the step of monitoring the results of the procedures to identify the proximity of the insured entity meeting the program requirements is performed after the insurance program is issued to the insured entity.
- 29. (new) The method of Claim 1, wherein the interested third party is an insurance underwriter.
- 30. (new) The method of Claim 1, wherein the interested third party is a reinsurer.
- 31. (new) The method of Claim 9, wherein the step of monitoring the results of the procedures to identify the proximity of the insured entity meeting the program requirements is performed after the insurance program is issued to the insured entity.
- 32. (new) The method of claim 17, wherein the step of monitoring the insured entity to determine whether the insured entity is meeting the program requirements is performed after the insurance program is issued to the insured entity.

1611946_1 DOC

(new) The system of claim 24, wherein the independent program catalyst monitors the 33. results of the target entity to identify the proximity to meeting the program requirements after the program has been issued to the target entity.
